## AWS MEMBERSHIP CATEGORY DEFINITIONS

**Private Sector:** Organizations which are not under the control or ownership of government that may be privately owned or controlled by individuals or shareholders or businesses that primarily seek the commercial and/or economic interest of themselves (or their member organizations) including and not limited to individual businesses, subsidiary companies, state-owned enterprises, social enterprises, private sector membership organizations and platforms.

**Public Sector Agency:** Organizations which are under the control or ownership of the government, including and not limited to entities providing public benefit such as independent government agencies, government linked regulatory bodies and government recognized academic and most higher learning institutions, and whose primary aim is to pursue non-financial objectives.

**Civil Society Organization:** Organizations not under the control or ownership of private or public-sector actors, that have a distinct cultural, environmental, political or social mission including, but not limited, to community groups, indigenous groups, labor unions, non-governmental organizations (NGOs) and multi-stakeholder balanced membership bodies and platforms.
