

EVENTS AT A GLANCE

WEFTEC 2025

BREAKTHROUGH CIRCULAR TECHNOLOGIES TO RECOVER & REUSE NUTRIENTS

3:30 p.m. Monday, Sept. 29

Circular Water Economy Pavilion

Nutrient pollution from wastewater severely degrades water quality, posing diverse and significant threats. These impacts range from direct human health challenges and the proliferation of harmful algal blooms to increased greenhouse gas emissions and widespread negative consequences for both aquatic ecosystems and the economy. This panel will delve into circular economy solutions designed to recover these nutrients from water for beneficial agricultural applications.

Moderator: Katie Kollhoff Mouat, Director of Innovation Programs
Featuring:

- Steve Wirtel, VP of Business Development, Gross-Wen Technologies
- Mark Hernandez, CTO, Green Steel Environmental
- Inés Larrea Villanueva, CEO, Címico

BIG STEPS TO SEQUESTER & ELIMINATE EMERGING CONTAMINANTS

9:30 a.m. Wednesday, October 1

Circular Water Economy Pavilion

Explore recent first-of-a-kind installations to trap and destroy micropollutants as the starting point to commercialize breakthrough technologies from early-stage companies.

Moderator: Katie Kollhoff Mouat, Director of Innovation Programs
Featuring:

- Nathaniel Banks, CEO, PolyGone Systems
- Marten Hillen, CEO, Weaver Labs
- Sarah Meyer, COO, Enspired Solutions

BEYOND THE STANDALONE: INTEGRATING INNOVATION FOR THE FUTURE OF WASTEWATER

10 a.m. Wednesday, October 1
Global Center

No one in water works alone. Integrating available tools into built-for-purpose systems can expand the number and types of solutions available to match customer wastewater profiles. In this session, global innovators and integrators will explore what it means to be at the cutting edge of new technology and how those technologies can partner to form end-to-end solutions to growing challenges.

Moderator: Karen Frost, Executive Director

Featuring:

- Orianna Bretschger, CEO, Aquacycl
- Ticia Heward, CEO, Legacy Watercare Innovations
- Joaquin Martin, COO, BIOBOX
- Stephen Slessor, CEO, RSE

HERE'S WHERE TO FIND 2025 BREW 2.0 COMPANIES

Green Steel Environmental: Booth 7740

Legacy Watercare Innovations: Booth 7643

Weaver Labs: Booth 5715C (Innovation Showcase)

Application for the 2026 BREW 2.0 cohort is now open! Visit thewatercouncil.com/BREW for more information.

HERE'S WHERE TO FIND MEMBERS OF THE WATER COUNCIL

ABB: Booth 1243

Aquagga: Booth 6111

APX10, Inc.: Booth 6321

Aquamonitrix Ltd: Booth 5934

Badger Meter: Booth 1838

CIS: Presenting "Using Collaborative Delivery to Build High-Performing Urban Resilience Infrastructure Programs," Wednesday at 10:30 a.m., Room S402a

EMS Industries: Booth 6554

Enspired Solutions: Booth 2567 (Circular Water Economy)

Gross-Wen Technologies: Booth 6222

Grundfos: Booth 1813

Ixom Watercare: Booth 3602

PIA Global (with M.E. Simpson & Electro Scan): Booth 6427

Ramboll: Booth 352

Rudolf Messner Umwelttechnik AG: Booth 2876

SigmaDAF: Booth 3450

SmartD Technologies: Booth 4560

Sodimate: Booth 217

Tomorrow Water: Booth 3405
