

# EVENTS AT A GLANCE

## WEFTEC 2023

### NAVIGATING RESILIENCY IN THE ESG LANDSCAPE

Date: Monday, October 2

Where: SDG 6 Theater - Drinking Water Pavilion (Booth #4431)

Time: 10:30 AM – 10:55 AM

Following the success of The Water Council achieving an NSF (National Science Foundation) [Regional Innovation Engine](#) development award for water and energy resiliency, we will share how resiliency factors into the ESG dialog. ESG (Environmental Social & Governance) has become a common conversation in today's corporate hallways and boardrooms. But how does resiliency factor into the dialog? Is it the same, different or a complement? Please join Dean Amhaus, CEO of The Water Council, and Mike DeNoma of Rockwell Automation for this panel conversation discussing resiliency, how it relates to ESG and how corporations and utilities can approach resiliency.

### WATER CLUSTER LEADERS FORUM

Date: Monday, October 2

Where: Innovation Pavilion

Time: 1:00 PM – 1:50 PM

The forum includes The Water Council, Cleveland Water Alliance, Current, The Water Tower and WaterStart.

### PFAS INNOVATION PANEL

Date: Tuesday, October 3

Where: Innovation Pavilion

Time: 10:00 AM – 10:25 AM

PFAS and perfluorinated compounds and contamination are certainly well known in the water world and becoming common vocabulary in the general population. No one can deny the threat that these compounds pose in our environment. But there are emerging solutions to go beyond PFAS capture and destroy these compounds. Karen Frost, Vice President Economic Development & Innovation at The Water Council, will lead a discussion with Chris Woodruff of Aquagga and Sarah Meyer of Enspered Solutions, both participants in the BREW 2.0 Post-Accelerator.

THE WATER COUNCIL

## COLLABORATION “ACROSS THE POND” – U.S. AND E.U. CLUSTER ENGAGEMENT

Date: Wednesday, October 4  
Where: Global Center Stage  
Time: 10:30 AM – 11:00 AM

Join us for this conversational session between The Water Council, The Water Alliance (Netherlands) and CLEAN (Denmark) to hear about our cross-cluster collaboration, including how we've jointly supported startups and SMEs in our respective markets and how we have leveraged each other's programs, networks and business opportunities.

## HERE'S WHERE YOU CAN FIND 2023 BREW 2.0 COMPANIES
